## CHICAGO AND DETROIT, PENNANT WINNERS, TO PLAY SIX GAMES FOR WORLD'S CHAMPIONSHIP

### CHICAGO FOUR; NEW YORK TWO; PENNANT WON

RECORD BREAKING CROWD SEES  
GIANTS GO DOWN IN SAD  
DEFEAT.

MATTHEWSON LOST ARM POWER,  
REPLACED BY WILTSE  
IN SEVENTH.

Fans Beaten Back From Diamond by  
Police and Thousands Are Unable to  
Enter Grounds—Chicago Makes All  
Its Runs in Third Inning.

NEW YORK, October 8.—Chicago 4,  
New York 2.

In the presence of a record-breaking  
crowd, which swamped the Polo grounds  
and left many thousands outside, to-  
day's baseball game was played in dead-  
ly earnest—straight baseball, with no  
frills, to settle as tensely dramatic a  
situation as the most ardent lover of  
the sport could imagine.

Chicago won and New York lost the  
National league championship.

The game was played in the cheerful  
sunshine of an ideal baseball day before  
a vast concourse of people who carried  
with them the hopes and fears accumu-  
lated day by day in the closing weeks  
of the season.

Spectators who kn owe the game con-  
cede tonight that the work of the Chi-  
cago team was practically perfect. The  
giants were outplayed. Chicago, fresh  
from its rest and well judged practice  
and coaching, was in superb form. Brilliant, errorless fielding, snappy base  
running and opportune hitting in the  
third inning which was made effective  
in scores, a double by Chance, won  
the game.

New York could not hit at critical  
times. Matthewson, favorite of the favorites,  
could not keep his invincible arm power  
and the effect of moments of lapse in  
the third inning could not be overcome.  
McGraw's substitution of Wiltse in the  
box for the last two innings may or  
may not have been wise. The home  
team needed a long hit, needed the tre-  
mendous rallying power which Matthew-  
son has more than once inspired in them  
at the very finish, wringing victory from  
seeming defeat.

Outside the grounds, for an hour pre-  
ceding the calling of the game at 2:45  
o'clock, there was an almost uncon-  
trollable crush of many thousands. Sudden-  
ly the corner gates to the diamond  
were opened and hundreds rushed mad-  
ly to the sides of the field, fighting for  
places, stopping the practice of the  
lines and causing confusion. But the  
police fought the crowd back and finally  
a sufficient margin of field was main-  
tained around the diamond.

The two great innings of the game  
were the third and the seventh. In  
the former, Chicago made all its runs.  
In the latter, opening with enthusiasm,  
hopes were renewed, but died after  
one run, which kept company with that  
made in the first inning, on the mam-  
moth bulletin board far out of field.

The score:  
R. H. E.  
Chicago.....4 8 0  
New York.....2 5 1  
Batteries—Pfeister, Brown and Kling;  
Matthewson, Wiltse and Bresnahan.

### COAST LEAGUE.

At San Francisco—San Francisco 3,  
Oakland 0.  
At Los Angeles—Los Angeles 1, Port  
land 1; thirteen innings; called on ac-  
count of darkness.

### FOR WORLD'S CHAMPIONSHIP.

CINCINNATI, Ohio, October 8.—Be-  
ginning at 2 p. m., October 19, the base-  
ball teams of Detroit and Chicago,  
which have just won the closest re-  
corded contest for the championships of  
the American and National leagues, will  
meet in Detroit to enter upon a six-day  
series of games for the baseball cham-  
pionship of the world.

But one game will be played in De-  
troit before the scene shifts. Sunday  
and Monday the contests will be played  
in Chicago, while Tuesday and Wednes-  
day the games will be played in De-  
troit, and the sixth game, if one is  
necessary, will then be transferred to  
Chicago. There have been some addi-  
tional rules adopted, governing such  
contests, although in most respects the  
rules will be as at previous games. The  
National baseball commission will be in  
charge, but immediate control of the  
games is given to two umpires from  
each league. For the National league,  
Umpires O'Day and Klem were desig-  
nated by President Pulliam, while Pres-  
ident Johnson of the American league  
named Sheridan and Connolly to repre-  
sent his organization.

The following rules govern the  
world's championship series:  
Certified checks of \$10,000 shall be

deposited by each club with the secre-  
tary of the commission not later than  
11 o'clock, the first day of the schedule,  
and shall thereup, by the secretary, im-  
mediately be placed in bank to the  
credit of the National commission. The  
schedule, as adopted, was determined by  
lot, as provided for by the rules. If  
any of the games scheduled at any  
park are postponed on account of rain  
or from any other cause, the teams will  
be required to play such postponed  
game on the first day available after  
such postponement, and at the same  
park, provided, however, that the game  
scheduled for the Chicago park on Sun-  
day, October 11, shall be played at that  
park. In case it becomes necessary to  
play the seventh game, the city in  
which it is to be played will be deter-  
mined by the commission, as provided  
by rule 16, the time designated by sup-  
plemental rule No. 5.

The following players are eligible to  
participate in the games, and none oth-  
ers:

Chicago—Brown, Chance, Durbin,  
Evers, Frazer, Howard, Hofmann, Kling,  
Kroh, Lundgren, Marshall, Moran, Over-  
all, Pfeister, Ruelbach, Shreckard, Sla-  
gle, Schulte, Steinfeldt, Tinker, Zim-  
merman.

Detroit—Coughlin, Cobb, Crawford,  
Downs, Donovan, Jones, Jennings, Kill-  
ian, Killifer, Mullin, O'Leary, Rossman,  
Schmidt, Summers, Snuggs, Schaefer,  
Thomas, Willetts, Winter and McIntyre.

Price of admission: Chicago—Gen-  
eral admission, \$1.00; grand stand (un-  
reserved) \$1.50; grand stand (reserved)  
\$2.00; box seat, \$2.50. Detroit—Gen-  
eral admission, \$1.00; pavilion, \$1.50; grand  
stand, \$2.00; box seats, \$2.50.

### UNIQUE WAY OF GETTING RID OF LOOT

As starting a scheme of disposing of  
stolen property as could well be  
imagined, was that suggested in Jus-  
tice Hinson Thomas' court yesterday by  
Sam Boone, who was being given a pre-  
liminary hearing with Teresa Briga,  
the deaf and dumb Mexican girl, who  
is charged with burglary.

Several pieces of jewelry and cloth-  
ing were stolen from the home of Mrs.  
Clara Kinney. Mrs. Kinney, accom-  
panied by one of the officers from the  
sheriff's office, made a systematic  
search of the various shops in town and  
traced up part of her property. It was  
learned that one piece of jewelry had  
been sold by Boone, and he was arrest-  
ed, as well as the girl.

In the court yesterday, Boone testi-  
fied that the girl had met him on the  
street and offered to buy him a supper.  
He had no money, but she said she  
had enough. The meal over, the Chi-  
nese waiter asked for the price of the  
meal. Boone expected it from the girl,  
but she said that she had no money.

She allowed the wrangle to continue for  
some time, then pulled a ring from her  
finger and handed it to Boone, telling  
him, in her expressive sign language, to  
go and sell it for \$5.

This was a ring for which Mrs. Kin-  
ney paid \$40 in Mexico some twenty  
years ago, and Boone got \$5 for it with-  
out any trouble. Returning to the sa-  
loon, he handed the money to the girl,  
who paid the Chinaman his 50 cents and  
gave him the remainder.

### MARK SMITH WILL ARRIVE HERE TONIGHT

DEMOCRATIC CANDIDATE WILL  
BE HERE ALL DAY FOR  
MONSTER RALLY.

Change Will Not Interfere With Other  
Details of Itinerary, Which Remains  
Unchanged—Object Is Simply to Let  
More People Meet Candidate.

Mark Smith, the democratic territo-  
rial candidate for delegate to congress,  
will arrive in Globe tonight, one day  
ahead of his schedule, thanks to the  
efforts of the local managers of his  
campaign, who wish to give the peo-  
ple more time in which to meet the  
sturdy champion of Arizona's rights  
and interests in the congress of the  
United States.

Judge J. M. McCollum, who returned  
yesterday evening from Safford, where  
Mr. Smith spoke last night, said that  
the distinguished candidate had been  
greeted with a rousing reception in the  
valley town and that the meeting was  
to be one of the largest political gather-  
ings ever held there.

Mr. Smith's itinerary through the  
territory will not be changed by his ad-  
vancement of his arrival in Globe. He  
will appear at all other places as an-  
nounced, simply remaining in this city  
a little longer than had been antici-  
pated. This will give Mr. Smith a well-  
earned rest and he is sure to be in fine  
form for the monster rally which is to  
be held tomorrow night.

### WATERWORKS SALE IS SOON TO BE TAKEN UP

MATTER DISCUSSED AT MEETING  
OF CITY COUNCIL LAST  
NIGHT.

PROJECT HAD BEEN HELD IN  
ABEYANCE IN ABSENCE  
OF AMSTER.

Chief Stockholder of Pinal Mountain  
Water Company Coming at Early  
Date—Sewer Engineers' Bill Allowed  
by City Fathers—Other Business.

The regular meeting of the city coun-  
cil last evening was short and snappy;  
the entire session occupying but half  
an hour. All members were present ex-  
cept Alderman Higdon, who is out of  
town, and only routine business was  
transacted.

It being the second meeting of the  
month, it was the night for paying bills,  
and a large number of them were pre-  
sented, all of which had been approved  
by the finance committee except one  
from Olmsted & Gillen, the Los Angeles  
engineers who made the plans for the  
proposed sewer system as ordered by  
the former council. This bill was for  
\$250 and as the finance committee was  
under the impression that it was an  
overcharge, they referred it to the full  
council for action. It appears that Olm-  
sted & Gillen were paid \$500 by the  
old council for coming here and exam-  
ining the ground and making a report on  
the sewer proposition. After this mat-  
ter had been attended to the engineers  
were employed to draw plans and speci-  
fications for the proposed system at an  
agreed price of \$250, which was the  
bill presented last night. After an ex-  
planation to this effect had been made  
by City Attorney Allred, the bill was  
allowed.

The bond of City Marshal Bob An-  
derson in the sum of \$5,000, signed by  
prominent local business men, was ap-  
proved.

Some little discussion of the water  
works subject brought out the informa-  
tion that N. L. Amster, who is the  
principal stockholder of the local com-  
pany, is expected in Globe at an early  
date, at which time the matter of the  
purchase of the local plant by the city  
will be taken up between the board of  
directors of the water company and the  
council. Readers of the Silver Belt will  
remember that some months ago a pe-  
tition was presented to the council, car-  
rying the names of more than six hun-  
dred signers, asking the council to build  
a municipal water works, and at the  
time a committee was appointed to con-  
fer with the water company, looking  
towards opening negotiations for the  
purchase of the plant. The committee  
reported back that it would be impos-  
sible to do any business in this direc-  
tion until the return of Amster, whose  
home is in Boston, and who is the own-  
er of the greater share of stock in the  
company. It is now thought that he

### MR. FOSTER DENIES KAMSTRA WAS SHORT

SAFFORD MERCHANT SAYS THAT  
JEWELER WAS STRAIGHT  
IN ACCOUNTS.

Also Denies Story of Arrest on Charge  
of Embezzlement—Says Only Trouble  
Was an Indebtedness of \$100 From-  
sory Note Kamstra Failed to Take.

"L. Kemstra was not short in his  
accounts with neither the Odd Fellows  
lodge nor the volunteer fire department,  
and was not detained on a charge of  
embezzlement by either of these or-  
ganizations. He owed \$100 on a prom-  
issory note to a resident of this place  
and was held by this party. While he  
should have settled these little accounts  
before undertaking to leave here, I do  
not think he intended any wrong-  
doing."

The foregoing message was tele-  
phoned the Silver Belt last night by J.  
M. Foster, president of the Foster Mer-  
cantile company, Safford, and was sent  
as a correction of the story published  
in yesterday's Silver Belt regarding L.  
Kemstra, a former Safford jeweler. Mr.  
Foster is a prominent member of the  
Safford lodge of Odd Fellows and is in  
a position to make an accurate state-  
ment regarding Mr. Kemstra's relation-  
ship with the Safford Odd Fellows. He  
further stated that Captain Kruger of  
the fire department denied the story that  
he was short with that organization.

As stated in yesterday's Silver Belt  
Kemstra has always enjoyed the confi-  
dence of the people of the valley and  
the false story, which was in circula-  
tion in Safford, caused something of a  
sensation. The Silver Belt cheerfully  
makes the correction as transmitted by  
Mr. Foster.

### "Satan Sanderson" The powerful story that is travelling the attention of the lit- erary world.

Opening Chapters in  
Sunday's Silver Belt

No reader who begins Satan San-  
derson will be able to lay it aside  
until the end is reached. Start-  
ing Sunday the story will be pub-  
lished in daily installments.

The Story of a  
Thousand Thrills  
Wait for it! Watch for it!  
Read it!  
Starts Sunday, Oct. 11

### MR. FOSTER DENIES KAMSTRA WAS SHORT

SAFFORD MERCHANT SAYS THAT  
JEWELER WAS STRAIGHT  
IN ACCOUNTS.

Also Denies Story of Arrest on Charge  
of Embezzlement—Says Only Trouble  
Was an Indebtedness of \$100 From-  
sory Note Kamstra Failed to Take.

accounts with neither the Odd Fellows  
lodge nor the volunteer fire department,  
and was not detained on a charge of  
embezzlement by either of these or-  
ganizations. He owed \$100 on a prom-  
issory note to a resident of this place  
and was held by this party. While he  
should have settled these little accounts  
before undertaking to leave here, I do  
not think he intended any wrong-  
doing."

The foregoing message was tele-  
phoned the Silver Belt last night by J.  
M. Foster, president of the Foster Mer-  
cantile company, Safford, and was sent  
as a correction of the story published  
in yesterday's Silver Belt regarding L.  
Kemstra, a former Safford jeweler. Mr.  
Foster is a prominent member of the  
Safford lodge of Odd Fellows and is in  
a position to make an accurate state-  
ment regarding Mr. Kemstra's relation-  
ship with the Safford Odd Fellows. He  
further stated that Captain Kruger of  
the fire department denied the story that  
he was short with that organization.

As stated in yesterday's Silver Belt  
Kemstra has always enjoyed the confi-  
dence of the people of the valley and  
the false story, which was in circula-  
tion in Safford, caused something of a  
sensation. The Silver Belt cheerfully  
makes the correction as transmitted by  
Mr. Foster.

### BILLY ROBERTSON INDICTED FOR KILLING

TRUE BILL RETURNED AGAINST  
SAFFORD OFFICER WHO  
SLEW PURSELY.

Trial Will Begin Tuesday of Next Week  
—Proceedings Attracting Consider-  
able Attention Down Valley, Where  
Both Men Were Well Known.

SAFFORD, October 8.—Billy Robert-  
son, the town marshal of Safford, who is  
charged with the killing of Wayne  
Pursley last month, has been indicted  
by the grand jury. The trial has been  
set for Tuesday, next.  
Considerable interest is being taken

in the proceedings throughout the val-  
ley, by reason of the prominence of the  
man who was killed.

The killing followed a quarrel over  
some cows of Pursley's, which had been  
impounded. The rancher had been cut  
across the chest in the fight, the knife  
severing two of his ribs, as brought out  
at the subsequent autopsy, and when  
Marshal Robertson tried to arrest him,  
Pursley refused to submit until he had  
had his wound dressed. Robertson in-  
sisted that he come instantly, and in  
the fight which followed, Pursley was  
shot three times, dying almost instan-  
tly as he lay on the sidewalk. The man  
who cut Pursley is also being prose-  
cuted.

Miss Angia Robinson, while riding  
this morning, was thrown over her  
horse's head, sustaining painful, though  
not serious injuries.

Mrs. Y. Hudson of San Carlos was the  
guest of Grandma Sparks the first of  
the week.

Mrs. Charles F. Solomon is spending  
this week in Solomonville, the guest of  
Mrs. I. E. Solomon.

The Eastern Star lodge held its regu-  
lar meeting Wednesday night.

Mrs. Katherine Fleming of El Paso is  
a guest at the Jones hotel.

Dr. Branner's office building is well  
under headway.

W. G. Daniel left this morning for  
Ft. Thomas, where he will spend the  
next two weeks.

Quite a party enjoyed a dance at  
Cliff's Wednesday night.

Mark Smith, the democratic nominee  
for delegate to congress, will speak in  
Todd's hall tonight.

Mr. Haue of El Paso is in town to-  
day.

### EUREKA SHAFT IS NOW ALL IN ORE

VEIN SHOWS IMPROVEMENT AND  
INDICATIONS GOOD FOR  
BIG ORE BODY.

The Eureka shaft is all in ore at 610  
feet.  
The round of holes blasted Wednes-  
day night uncovered the vein the full  
length of the shaft, which is 16 feet, 4  
inches, and while conditions in the bot-  
tom are not fully revealed, no mucking  
having been done yesterday, the ore  
from the south end of the shaft, where  
the vein was first struck, shows a much  
better character of iron and more cop-  
per in the form of green carbonates.  
A specimen of the ore examined yester-  
day by a representative of the Sil-  
ver Belt would probably go 4 or 5 per  
cent copper. No assays have yet been  
made.

The local management is very much  
encouraged by the developments of the  
past few days in the Eureka shaft and  
anxious to do down on the ore as rap-  
idly as possible. However, it was deem-  
ed best to discontinue sinking for a day  
or two in order to start a station at the  
600-foot level, and put in timbers. The  
excavation for the station was carried  
back from the shaft on the east side  
of the shaft only five feet and a set of  
timbers put in. The station will not be  
completed until the shaft has been sunk  
125 feet further to another level. A  
set of timbers and bearers were also  
put in today at the 600-foot level. To-  
morrow the muck will be removed from  
the shaft and drilling resumed.

Now that good ore has been struck in  
the Eureka shaft it is altogether prob-  
able that a large and valuable ore body  
will be developed that will place Ari-  
zona Commercial in the front rank of  
the copper companies in Arizona.

### "Gross Injustice," Says John Sharp

Yazoo City, Miss., September 26, 1908.

To Mr. J. P. Dillon,  
Chairman Territorial Democratic Central Committee, Prescott, Arizona.  
My Dear Sir: I am informed that in the fight being made on Mark  
Smith, the delegate from Arizona, some things are being said which, to  
my personal knowledge are untrue. I dislike very much to interfere, or  
bear the appearance of interfering, in what seemingly does not concern  
me. I have been for five years the leader of the minority on the floor of  
the house of representatives. It has been my duty to know the records  
of men and perhaps it is my duty also, in behalf of the party to which I  
belong, to defend them now and then when they are WRONGFULLY AT-  
TACKED.

Mr. Mark Smith has been one of the most diligent men in his atten-  
dance at the meetings of the house, one of the most vigilant in watching  
those things that concern his territory and one of the most active in  
pushing legislation which is, in his opinion, good for his constituents, and  
in repressing that which is bad for them. If any excuse is needed for this  
letter, it consists in the fact that I cannot stand idly by and witness GROSS  
INJUSTICE. But for Mark Smith Arizona would now be in the union as  
a part of the state of "New Mexico." He first, through me and others,  
members of the committee and members of the house who were not members  
of the committee, interested the democratic party in the prevention of that  
great wrong until we had the party solid in the house against it and very  
nearly solid in the senate. He then obtained republican assistance with  
the same end in view. The victory which we won in getting Oklahoma in-  
to the union, without joining Arizona and New Mexico, and thereby re-  
taining the opportunity for Arizona to become some day an independent  
and a great state, was a most excellent and remarkable one when you  
consider it was won over the speaker and the management of the house,  
"The Big Five," as they are called, and over the expressed desires of the  
president himself.

With every expression of regard, I remain,  
Very truly yours,  
JOHN SHARPE WILLIAMS.

### BRYAN EXPLAINS NEED FOR WATER TRANSPORTATION

DEMONSTRATION GREETED GREAT  
COMMONER IN DEEP WATER  
WAYS CONGRESS.

DELEGATES RISE IN BODY AND  
CHEER THEMSELVES HOARSE  
AS HE ENTERS.

Nebraska Is Heartily in Sympathy  
With Movement and Explains How  
Rates Will Be Lowered by Commerce  
in Now-Neglected Rivers of Country.

CHICAGO, October 8.—When Wm.  
J. Bryan, speaker of the day at the  
second session of the deep waterways  
convention, reached the Auditorium the-  
ater, the audience arose in a body,  
cheering lustily, and waving American  
flags. This was a repetition of the re-  
ception accorded Wm. H. Taft yester-  
day. Previous to the arrival of the  
distinguished Nebraskan, a letter was  
read from J. J. Hill. J. C. Froman of  
Richmond, Va., moved that Hill's paper  
be published and sent to every com-  
mercial organization in the country, and  
he declared it the strongest plea for  
deep water ways that the association  
could put forth.

Mr. Bryan showed only a trace of  
hoarseness when he began speaking. His  
address was repeatedly interrupted by  
applause as he made some humorous  
touch or drove home an argument.

In the beginning, Bryan related a  
few humorous stories which caused  
much laughter, then he said:  
"I am glad to meet with those who  
assemble here in the interest of the de-  
velopment of the waterways of the  
country. I am in hearty sympathy with  
you. You cannot give the people too  
good facilities for the transportation  
of merchandise. If you tell me that  
you want to improve the Mississippi, I  
shall tell you that it is all right, and  
I will help you improve it just as far  
as you please and to make the canal  
as wide as you please, and as deep as  
you please, and when you get to im-  
proving the Mississippi, I will start, all  
alone, if necessary, to improve every  
river that empties into the Mississippi."

"Water transportation is natural  
transportation. God made the rivers,  
man made railroads. The rivers were  
means of transportation before the rail-  
roads were invented, and while the  
railroad has given us speed, it has not  
given us the cheapness that the river  
gives, and speed is not the only thing.  
The railroad cannot rival the water  
course in cheapness. And then there is  
another advantage that the water  
course has: When you finish the river  
sufficiently deep for commerce, or a  
canal upon which boats can float, you  
make it possible for the man with a  
small capital to act. Where there is a  
river, any man who can build a boat can  
engage in transportation, and if he can-  
not build a big boat he can build a  
little boat, and if you have a large num-  
ber of little boats, the big boat will  
have to meet the rate the little boat  
fixes.

"You will find it a much easier thing  
to regulate rates on water than on land,  
because competition can be much more  
active on water than on land."
